Exp-2
Aim: Design Test cases for Purchase Order Management.

Sr. No.	Test Case ID	Test Case Scenario	Input Data	Expected Result	Actual Result	Status(Pass /Fail)
1	TC-01	Verify if the user is able to login with the correct password or not.	Username- ABC, Password- Abc@123	User should be able to successfully login on the home page	User is able to login succesfully	Pass
2	TC-02	Verify if the user is able to login with the correct password or not.	Username- ABC, Password- Abc@124	User should be able to successfully login on the home page	User is not able to login succesfully	Fail
3	TC-03	Verify if the user is not able to login with the incorrect password or not.	Username- ABC, Password- Abc@125	User should not be able to login on the home page	User is unable to login	Pass
4	TC-04	Verify that search field accepts alphabets, numbers or symbols.	Searching an item: One plus 11@R	Search field should accepts alphabets, numbers or symbols.	Search field accepts alphabets, numbers or symbols.	Pass
5	TC-05	Verify that price of product is displayed.	~	The price of product should be displayed.	The price of product is displayed	Pass
6	TC-06	Verify that payments options applicable for the order should be	~	The checkout page should be displayed with payments options.	The checkout page is displayed with payments options.	Pass
7	TC-07	Create a purchase order successfully	Supplier name, item name, quantity, delivery date	Purchase order created successfully	Purchase order created successfully	Pass

8	TC-08	Create a purchase order with missing mandatory fields	Supplier name, item name	Error message "Please fill in all mandatory fields"	Error message "Please fill in all mandatory fields"	Pass

9	TC-09	Create a purchase order with a duplicate purchase order number	Purchase order number that already exists in the system	Error message "Duplicate purchase order number"	Error message "Duplicate purchase order number"	Pass
10	TC-10	Create a purchase order with a delivery date in the past	Delivery date in the past	Error message "Delivery date cannot be in the past"	Error message "Delivery date cannot be in the past"	Pass
11	TC-11	Create a purchase order with a quantity greater than the available inventory	Quantity greater than available inventory	Error message "Quantity exceeds available inventory"	Error message "Quantity exceeds available inventory"	Pass
12	TC-12	Submit a purchase order for approval successfully	Purchase order number	Purchase order submitted for approval successfully	Purchase order submitted for approval successfully	Pass
13	TC-13	Approve a purchase order successfully	Purchase order number	Purchase order approved successfully	Purchase order approved successfully	Pass
14	TC-14	Reject a purchase order successfully	Purchase order number	Purchase order rejected successfully	Purchase order rejected successfully	Pass

				Error message	Error message	
15	TC-15	Edit a purchase order after it has been approved	Purchase order number, new quantity	Error message "Purchase order has already been approved"	Error message "Purchase order has already been approved"	Pass
16	TC-16	Delete a purchase order before it has been approved	Purchase order number, new quantity	Error message "Purchase order has already been approved"	Error message "Purchase order has already been approved"	Pass

				Error message	Error message	
17	TC-17	Delete a purchase order after it has been approved	Purchase order number	Error message "Purchase order has already been approved"	Error message "Purchase order has already been approved"	Pass
18	TC-18	Receive items on a purchase order in full	Purchase order number	Items received successfully	Items received successfully	Pass
19	TC-19	Receive items on a purchase order partially	Purchase order number, partial quantity	Items received partially	Items received partially	Pass
20	TC-20	Receive items on a purchase order with a quantity greater than the quantity on the purchase order	Purchase order number, greater quantity	Error message "Quantity received exceeds quantity on the purchase order"	Error message "Quantity received exceeds quantity on the purchase order"	Pass
21	TC-21	Verify that user should be able to return the order after delivery of order.	Purchase order number	User should be provided with pickup date and time for return.	User is provided with pickup date and time for return.	Pass
22	TC-22	Verify that user should be able to exchange the order from My orders page.	Purchase order number	User should be given details of exchange item .	User is given the details of exchange item	Pass

| 23 | TC-23 | Verify that user should be able to exchange the order from My orders page. | Purchase order number | User should be given details of exchange item . | User is not given the details of exchange item | Fail |
| 24 | TC-24 | Verify that user should be able to provide feed back and reviews about | Purchase order number | Click on Write review button for an item. | User can write review about the item | Pass |
